

DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU

LRB-0903/P1dn
TKK:cjs:ph

January 7, 2011

Senator Darling:

This bill authorizes the Milwaukee common council to adopt a resolution approving the sale of city-owned property used for school purposes if the common council finds that the property has been unused or underutilized for at least 24 consecutive months. Do you wish to establish any other circumstances under which the common council can approve the sale of property used for school purposes?

Current law permits the MPS board to direct the proceeds of a sale of real property used for school purposes to either the school operations fund under s. 119.46 or the school construction fund under s. 119.48. See s. 119.60 (1). Do you want to permit the common council to specify where the proceeds of a sale initiated by the common council would go?

Let me know if you have any questions or wish to make any changes.
